

Recommendations For Larissa

Graphic Artist

NYC TV

"Larissa is an incredibly talented and award winning motion graphic designer/artist that is also easy to work with and quick to adapt. In addition to a full mastery of After Effects, Final Cut Pro and other related programs she also brings to the table a refined eye for design and a strong work ethic. I collaborated with Larissa on a number of projects while at NYCTV/NYC Media Group including co-producing the "Day for Night" 2006 Whitney Museum's Biennial on-air special. I can confidently say with Larissa on the team you're sure to WOW the viewer and/or the client without loosing any sleep." *December 18, 2008*

1st [Peter Bossio](#), *Senior Art Director/Web Designer, NYC Government* worked directly with Larissa at NYC Media Group
