

DEPARTMENT OF INFORMATION TECHNOLOGY & TELECOMMUNICATIONS :: CITY OF NEW YORK

New York City, January 09

To whom it may concern

I hired Larissa Starikova over three years ago to join NYCTV's post production department as a Graphic Artist. She worked under my supervision for the entire three years.

Larissa is a talented, dedicated, artist who consistently delivered innovative and high quality work. Whether she was given creative freedom, specific directions, or a template driven project, she was able to meet deadlines with outstanding results.

Larissa is also very pleasant to work with, a team player, and always very pro-active.

It is with great sadness that her employment here was ended due a sudden enforcement of civil service law regarding the status of provisional employees. Larissa was hired for her excellent graphics skills, but outside union collective bargaining agreements.

In conclusion, I would like to highlight how instrumental she has been in the making of the countless graphics of our nationally distributed show "Secrets of New York", a show that twice in a row won the New York Emmy® for outstanding graphics.

I am confident that Larissa will be a great addition to any firm and will make herself an extremely valuable player to any graphic or motion graphic team.

If I can provide any further information please do not hesitate to contact me at the number below, or via email.
